

Building the future of cleaning

*Intelligent flexibility with precision
and agility for the most complex layouts*

Autonomous solutions

- Self-operating cleaning solutions without supervision
- Consistent performance of repetitive tasks
- Increased cleaning frequency in warehouses

Digital fleet management

- Data collection on when and where machines are used
- Data-driven optimization for cleaning program
- Higher productivity
- Better cleaning results

Liberty SC60 (Autonomous Scrubber)

Liberty SC60 specifications

- **Cleaning width:** 28"/71 cm
- **Max. speed (autonomous):** 2.46 mph/1.1 m/s
- **Tank capacity:** 27.74 gal/105 L
- **Time between dump and refill:** 2.5 hours
- **Run time:** 5.5-14 hours (depending on the energy solution and application study)
- **Battery type:** TPPL or AGM

Liberty SC60 distinguishing features

- **Superior Cleaning:** A proven scrubber with the **largest scrub deck** making it ideal for maximizing floor care quality in any environment (**28" cleaning width for both cylindrical and disk**)
- **Rotary and Cylindrical brush** options available
- The only machine in its range that is **third-party-certified** to avoid objects in its path (**CSA/ANSI**)
- The sole provider of energy solutions in the market offering **TPPL battery** options apart from AGM
- The only machine that has **EcoFlex system** which reduces cost and environmental impact
- Industry-leading **3 years warranty for parts replacement and labor, and 1 year of travel**, providing a more consistent and valuable customer experience.
